

ANASTASIA ZHURAVLEVA

Frontend Junior Developer • +49 160 2053979 • anazhur243@gmail.com • Cologne, Germany • [LinkedIn](#)

Motivated Frontend Junior Developer with a strong foundation in ReactJS, Redux, and JavaScript. Transitioning from a successful career in retail and wholesale management, where I developed excellent problem-solving, communication, and team collaboration skills. Recently completed a frontend development course, applying my attention to detail and adaptability to create dynamic web applications. Looking forward to leveraging my cross-industry experience in frontend development.

TECHNICAL SKILLS

- **Front End:** ReactJS, Redux, JavaScript
- **Developer Tools:** Docker, Git, npm, Jira, Scrum

SOFT SKILLS

- **Customer-focused mindset:** Strong problem-solving skills from managing retail and wholesale client relations, ensuring user needs are met.
- **Cross-functional collaboration:** Experience working with internal teams and external stakeholders, now applied in development.
- **Adaptability & quick learning:** Transitioned between industries (from retail to wholesale) and adapted quickly to new technologies in frontend development, demonstrating my ability to thrive in dynamic environments.
- **Process optimization:** Led efforts to streamline operations in previous roles, which taught me to value clean code and efficient development processes.
- **Communication:** Effective collaborator with both technical and non-technical teams.
- **Problem-solving:** Demonstrated ability to quickly identify issues and propose creative solutions, developed through experience in sales and customer service.
- **Time Management:** Ability to prioritize tasks, meet deadlines, and deliver results under pressure.

EXPERIENCE

Frontend Developer | Tel-Ran.de GmbH (Internship) November 2024 - January 2025

- Developed core features for an e-commerce platform, including product listing, favorites, cart, and order placement with form validation.
- Used ReactJS and Redux to manage global state and ensure seamless user experience.
- Designed and implemented custom UI components based on Figma mockups.
- Integrated the frontend with a pre-existing backend using React fetch hooks.
- Collaborated with another frontend developer to integrate different parts of the application.
- Conducted manual testing to ensure the quality and functionality of the platform

Wholesale Manager | AUMi (Nut Butters Manufacturer) September 2020 - November 2022

- Managed B2B sales, improved client relationships, and optimized operations.
- Conducted market analysis to enhance product offerings.
- Collaborated with production teams for better inventory management.

Retail Manager | AUMi (Nut Butters Manufacturer) December 2018 - September 2020

- Managed product listings, pricing, and order fulfillment.
- Coordinated marketing strategies to increase brand visibility.
- Worked with the IT department to enhance e-commerce platforms.

CERTIFICATIONS

Frontend Web Development - Starta Institute (January 2025)

- Focus on ReactJS, Redux, JavaScript, HTML/CSS, and Git.
- Hands-on experience with building dynamic, responsive web applications.
